CORPORATE RESPONSIBILITY

### THE RESPONSIBLE INVESTMENT CASE

Responding to global megatrends, new and universally accepted societal principals such as the Sustainable Development Goals (SDGs) and the Paris Agreement on Climate Change shift perspectives in the financial market. A strong focus on Responsible Investment (RI) and the comprehensive integration of Environmental, Social and Governance (ESG) aspects into investing are becoming mainstream.

An increasing number of investors recognize this responsibility, using the changed perspective to capture future value creation opportunities, alleviate stakeholder demands and comply with future regulatory demands.

At Tauw, we believe that a successful approach to RI and ESG integration must answer three key questions:

### TAILORED CONCEPTS FOR VALUE CREATION

Whether you are still looking for the business case in responsible investment or already are a leading impact investor, we support you to develop, maintain, or improve your RI/ESG approach. In doing so, we always work on the basis of your WHY and the unique characteristics of your organization - therefore being able to provide individual solutions which fit your needs.

To help your organization and investment portfolio advance sustainability, we draw on the unique combination of management consulting expertise and the diverse technical knowledge of the entire Tauw Group.

We also make sure to align our work with internationally accepted standards and practices, such as the UN Global Compact (UNGC), the UN Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

### OUR SERVICES

## ABOUT TAUW

Tauw is a consulting and engineering firm that has committed itself to provide 'sustainable solutions for a better environment'. The group is headquartered in the Netherlands and operates further offices in Germany, Belgium, France, Spain, and Italy. In total, Tauw employs more than 1,100 interdisciplinary specialists.

## OUR SERVICES FOR INVESTORS

We provide responsible investment and sustainability advisory services to the financial market in all Tauw countries. Within the last five years, we have successfully executed numerous sustainability related projects for financial clients all over Europe.
